### **TMM PURCHASES GREEN POWER AND PARTNERS WITH EPA**

TMM is proud to announce our new alliance with the U.S. Environmental Protection Agency's Green Power Partnership. The Green Power Partnership is a voluntary program that encourages organizations to use green power as a way to reduce the environmental impacts associated with electricity use. Additionally, TMM has purchased renewable energy certificates (RECs) from Terrapass, a social enterprise that provides carbon offsetting products to individuals and businesses. Using green power helps our organization become more sustainable, while also sending a message to others across the U.S. that supporting clean sources of electricity is a sound business decision and an important choice in reducing climate risk. This purchase qualifies TMM for EPA's Green Power Leadership Club, a distinction given to organizations that have significantly exceeded EPA's minimum use requirements.

TMM's partnership demonstrates a proactive choice to switch away from traditional sources of electricity generation and support cleaner renewable energy alternatives. To view our business partnership profile or learn more about green power, please visit:
